

SHEHAN PIUMIKA KUMARA

ELECTRICAL AND ELECTRONIC ENGINEERING (UG)

No.11/2, Padivita, Ihalagama, Matale | shehanpiumika@gmail.com | +94 75 545 2292

 : [shehan_piumika](#)

SUMMARY

Student in Electrical and Electronic Engineering at the University of Jaffna, with hands-on experience in power systems, renewable energy, and electrical testing. I am a highly motivated and goal-driven individual with a strong academic background and a passion for innovation. To fulfill the tasks that were given to me at any cost, even it risks when my life for the betterment of the organization. I strongly believe enthusiasm, commitment, hardworking and achievement oriented trustworthiness, independent and ability to work with team. All together play the critical role in my career success and advancement.

PROFESSIONAL EXPERIENCE

Trainee, Peoples Bank Regional Head Office - Matale Jan 2020 - Jan 2021

- Built relationships with coworkers and team members to increase work productivity.
- Gained experience in problem-solving and troubleshooting issues for customers.
- Completed on-the-job training sessions and demonstrated learned skills to supervisors.
- Shadowed employees to learn job duties and develop skills.
- Rotated positions to understand various department processes and goals.
- Learned how to use various computer programs such as Microsoft Office Suite, Excel and Outlook

Internship, Ceylon Electricity Board Feb 2024 - Present

- Gained experience in hydroelectric power generation operations, maintenance, thermal power generation processes and plant management.
- Gained hands-on experience in electricity transmission systems and network operations.

PROJECTS

- **A control system to automatically adjust the focus distance of a vehicle headlamp based on its speed - 2024 (Ongoing)**

The present invention is in the technical field of automatic turning of headlamps across a vertical plane, in a single dimensional movement that is controlled by several parameters including the speed, the brightness dependent factor and safety factor of the vehicle based on a stopping distance criterion

- **Traffic Light Control System with Emergency Vehicle Prioritization and Adaptive Management - July 2024**

Embedded System and Design Mini Project July 2024 Developed a smart traffic light control system using real-time data to prioritize emergency vehicles and reduce urban traffic congestion. The system adapts traffic light cycles based on real-time vehicle counts and identifies emergency vehicles to clear pathways promptly. This innovation addresses critical issues like delayed emergency response, increased congestion, and inefficient traffic management, enhancing overall urban mobility and safety.

- **Robotic Arm Simulation and Kinematic Analysis. (Group Project) 2024 August - 2024 September**

Simulated a pick-and-place robotic arm operation in RoboDK, including kinematic analysis using MATLAB Robotics Toolbox

EDUCATION

- **B.Sc.Eng(Hons) Electrical & Electronic Engineering** April 2021 - Present
University of Jaffna
- **G.C.E Advance Level Examination** Aug-2018
St. Thomas College Matale
- **G.C.E Ordinary Level Examination** Dec-2015
Christ Church College Matale

RELEVANT COURSEWORK

- | | |
|---|------|
| • PCB Design with ALTIUM & EAGLE | 2024 |
| • Advanaced Certificate in Business English | 2023 |

MEMBERSHIP

- | | |
|--|-----------------|
| • IESL Student Member Member S-30536 | 2022 to present |
| • Student Member IEEE PES Student Branch Chapter University of Jaffna | 2023 to present |
| • Treasure of Electrical and Electronics Engineering Society (EEES) University of Jaffna | 2024 to present |

TECHNICAL SKILLS

- MATLAB
- C++
- Proteus
- SIMULINK
- Ps Cad
- PCB Design
- ALTIUM
- Digital Marketing

PERSONAL SKILLS

- Leadership
- Problem-solving
- Team Working
- Communication
- Designing Skills
- Time Management
- Risk Managment
- Flexibility
- Responsibility

INTERESTS

- Power Systems
- Robotics
- Renewable Energy
- Automation
- IoT
- Telecommunication
- PCB design

LANGUAGES

- Sinhala : Advanced
- English : Intermediate
